

REVENUE GENERATION

The Board supports the long-standing practice of revenue generation consistent with the values of the community. The Board believes partnerships with community organizations may be strengthened and the community may be further engaged through innovative endeavours.

The Board will actively pursue and develop additional revenue sources to supplement provincial funding.

The Board will actively seek opportunities to provide educational services to the global community on a fee for service basis.

Specifically

1. Proposals for revenue generation projects and/or programs are to be made to the Superintendent.
2. The following criteria will be considered when reviewing possibilities for revenue generation.
 - 2.1 The educational benefit of revenue generation;
 - 2.2 The impact on existing revenue generation and on enrollment at individual schools or across the District;
 - 2.3 The financial resources required to ensure successful implementation;
 - 2.4 The degree to which the revenue generation reflects the values and goals of the Board;
 - 2.5 The availability of classroom space or other facilities and equipment required;
 - 2.6 The availability of qualified staff to ensure successful implementation;
 - 2.7 The impact on other service providers.
3. The Superintendent will bring revenue projects and/or programs which meet the above criteria forward to the Board for consideration and approval.
